

Philips AVENT
Teat

4 hole

Fast Flow 6m+

SCF634/42

Built-in Airflex Valve

Reduces colic

Healthy, active feeding

Built-in Airflex valve proven to reduce colic

With the AVENT Airflex Teat your baby controls milk flow more like breastfeeding, which can help reduce overeating and spit-up. A unique skirt system flexes to allow air into the bottle and promotes healthy, active feeding and reduces colic

Benefits and features:

- Built-in Airflex Valve
- Silicone
- Reduces colic
- Soft

Product highlights

Built-in Airflex Valve

The AVENT Airflex Feeding Bottle uses an Airflex Valve which works with baby's natural feeding action.

Reduces colic

*A clinical trial demonstrated that at 2 weeks of age, babies fed with the AVENT Bottle experienced less colic than babies fed with a conventional bottle.
